

SHOW STEER FIESTA *powered by* **BATTLE OF THE CATTLE**
STEER SHOW BREED DESCRIPTIONS & SHOW ORDER

SATURDAY, JULY 30 – 1 PM

- **MINI HEREFORD** - This division can be 48" or smaller. If you have registration papers, please bring them to classification. Mini exhibitors may have an extra handler in the ring.
- **BRAHMAN**
- **ABC BLACK** - This division will include cattle that possess American traits (ears, sheath, body characteristics) that are predominantly black-hided, as long as there is no white paint configuration from their shoulder back & above their belly line.
- **ABC RED** - This division will include cattle that possess American traits (ears, sheath, body characteristics) that are predominantly red, yellow or orange-hided, as long as there is no white paint configuration from their shoulder back & above their belly line.
- **ABC PAINT** - This division will include cattle that possess American traits (ears, sheath, body characteristics) that are paint, brindle, roan, tiger stripe or any color combination, from their shoulder back & above their belly line.
- **ABC-AOC** - This division will include cattle that possess American traits (ears, sheath, body characteristics) that are any color combination including smoky, grey, white, etc.
- **SLICK SHEAR** – Cattle in this division must be sheared in the entire body cavity, underline (belly and flank area), neck, head & chest. They may have hair on their tail, poll and ears. They may also have hair from their knee down on their front legs & hock down on their back legs. The purpose of this division is to give cattle that are not genetically inclined to have ample hair coat, a place where they can be more competitive with their type & kind.

SHOW STEER FIESTA *powered by* **BATTLE OF THE CATTLE**
SUNDAY, JULY 31 AT 9 AM

- **RED & BLACK ANGUS**
- **HEREFORD**
- **POLLED HEREFORD**
- **SHORTHORN**
- **BRITISH CROSS** - This division may be used for any British-type cattle that show a predominant amount of British characteristics. It may also be used for cattle classed out of Angus, Hereford, Polled Hereford or Shorthorn breeds that still display a predominant amount of British traits but may be mismarked, keeping them from classifying in their respective breeds. Mismarked traits on Herefords (missing feather, excessive white, etc.), uncharacteristic traits on black Angus cattle (large ears, uncharacteristic substance of bone, etc.) and uncharacteristic traits on red Angus (large ears, light colored, uncharacteristic substance of bone, etc.) This division *does not* include blue roans or baldies of any color (red, black, smoky, grey or yellow).
- **SMOKY CROSS** - This division includes cattle that are white, grey, smoky or any color combination with these colors, as long as there is not a significant amount of white or other color paint configuration from the shoulder back and above the belly line.
- **RED CROSS** – This division is for cattle that are red, light red, or any color combination with these colors, as long as there is not a significant amount of white or other color paint configuration from the shoulder back and above the belly line. This division includes solid red cattle, red baldies, red cattle with white legs and belly.
- **YELLOW CROSS** - This division is for cattle with yellow, orange or any color combination with these colors, as long as there is not a significant amount of white or other color paint configuration from the shoulder back and above the belly line. This division includes solid yellow, solid orange, yellow baldies, orange baldies and yellow/orange cattle with white legs and belly.
- **PAINT CROSS**- This division includes cattle that are smoky, red, black, yellow or any combination of those colors that have white paint configuration from the shoulder back and above the belly line.
- **BLACK PLUS CROSS** - This division is for cattle that are predominantly black & white, blue roan or any color combination of black & white, blue roan or brindle. This division includes black baldies, brockle-headed, blue roans and black cattle with white legs.
- **BLACK CROSS** - This division is for cattle that are predominantly solid black, as well as ones that are predominantly black with only a small amount of white that is not significant or noticeable.
- **AOC CROSS** - (ALL OTHER COLORS - CROSSBREDS)
